FOR IMMEDIATE RELEASE

WARREN TOWNSHIP OBTAINS SILVER CERTIFICATION

The Township Committee is pleased to announce that Warren Township will be one of four towns in the County and one of 46 out of 565 municipalities in the State of New Jersey to receive the Silver Certification from Sustainable Jersey. Sustainable Jersey is a program that encourages municipalities to implement practices that lead to cost savings in energy, water, and garbage as well as improve efficiency, cut waste, and stimulate the local business community.

Committeeman Mick Marion, liaison to the Environmental Commission, extended his appreciation to the hard work and dedication of the volunteers of the Warren Township Green Team, co-chaired by Laura Mandell and Ray Perry, as well as the many members of the team who spent many hours preparing documentation, conducting the medicine collection, and the preparing for the annual Green Fair. Mr. Marion commented, "Our commitment to a 'greener Warren' is strong and growing."

In order to obtain this certification, the Green Team obtained 360 points in various categories. The Green Team will receive the formal presentation of the Certification during the month of November.

Committeeman Lazo commended the Green Team members for the numerous volunteer hours, which enabled the achievement of this Silver Certification. Without volunteerism, these recognitions could not be achieved.

Warren Township residents are encouraged to participate in the annual Green Fair and attend other programs sponsored by the Green Team in order to continue to ensure that Warren remains a special community.
