

Warren Township Committee Enhances Communications With Facebook and Twitter

The Warren Township Committee is pleased to announce the launch of our official **Facebook** page and **Twitter** account. We intend to use these platforms to keep residents up-to-date on happenings around the Township as well as issues before the Township Committee and the decisions the Committee makes on behalf of the community.

On each of these platforms, you will find general news about the Township, its residents and businesses; the dates and times of upcoming meetings; links to important documents, including minutes from past meetings, press releases and others, and tips about safety, elections and just about everything you need to be an active and informed member of the community.

These new platforms will serve as additional resources to our e-blast system. The posts will include links to the Township website, warrennj.org, where the topics are addressed in greater depth and breadth.

Please check out our new pages and "like" and "follow" to stay current with Township affairs!

You can access our new official **Facebook** page by clicking [here](#).
You can access our new official **Twitter** account by clicking [here](#).

Please tell your contacts and friends to "like" and "follow" them as well, and remind those among them who are not already signed up for our **e-blast** system to do so by clicking [here](#) to sign up.

Thank you!
