GENERAL PROVISIONS OF THIS PLAN

Land use provisions and building requirements for the Redevelopment Area are deemed necessary as minimum requirements in the interest of public health, safety, convenience and general welfare. They are intended to provide a frame of reference for physical development of the Redevelopment Area. Developers will be given flexibility in project planning and design so long as buildings and improvements reflect quality, permanence and physical integration through design elements. The Township Committee has not attempted in these controls to anticipate every possible design or land use solution. Rather, project proposals will be evaluated as to how they achieve the objectives of this Plan.

1. The Township Committee and the Board specifically reserve the right to review and approve the redevelopers’ plans and specifications with respect to their conformance to this Plan. Such a review shall be based on submissions to the Board of a site plan and/or subdivision plan locating the proposed project in the Redevelopment Area; a site plan and/or subdivision plan that complies with Township site plan regulations illustrating all site features; and building elevations for all facades.

2. Subdivisions of lots and parcels of land within the Redevelopment Area shall be in accordance with requirements of this Plan, the Township Subdivision and Site Plan requirements and applicable requirements of the Township’s Zoning Ordinance.

3. The redeveloper shall also comply with the requirements of the Local Redevelopment and Housing Law, P.L. 1992, Chapter 79.

The continued use of existing properties made nonconforming by adoption of this Plan is permitted until the property is to be redeveloped or substantially rehabilitated, at which time the provisions of this Plan shall apply.
In the case where a particular land use or site standard is not covered in this Plan, compliance with the Township Zoning Ordinance or other applicable Township codes will be required.

Exceptions to Standards:

Variation from the development requirements and design standards set forth by this Plan may be necessary in certain limited circumstances, such as the building size standard. In such instances, the Board may grant reasonable exceptions from certain bulk, parking or design requirements if the designated redeveloper demonstrates that such design exception(s) will not substantially impair the intent of the Plan and will not present a substantial detriment to the public health, safety and welfare.

To gain approval of such modification or waiver of a development requirement or design standard, the applicant shall demonstrate that the resulting change will:

1. generally satisfy the Plan’s goals and objectives;

2. be designated in accordance with the Township’s normally acceptable engineering, planning and/or architectural practices;
